## Frontend Web Developer

I am a self-taught Frontend Web Developer with expertise in React and specialized in Next.js. I began my coding journey in 2019, learning HTML, CSS, JavaScript, and PHP through countless YouTube tutorials. React quickly became my preferred library, and I further expanded my skills with derived frameworks like Next.js and more. I gained practical experience by working on projects from websites like Frontend Mentor and completed a 3-month internship, practice, and freelance projects.

## WORK EXPERIENCE

---

**Njanda Ecommerce** • Remote • Part-time **May 2023 - Jul 2023**

Young e-commerce company in Cameroon for which I coded first a landing page then the full ecommerce website. On these projects, I collaborated with a backend developer and designer to create a fully responsive e-commerce website using React, React Router, React I18n, and Framer Motion.

**Lead React/Next JS Web Developer**

**Upwork** • Remote • Part-time **May 2022 - Present**

Most known freelance online platform. Link: <https://www.upwork.com/freelancers/~01e995389d97e03a27>
